Contact Phone Number: 928 422-3233

Contact Email: krex@seligman.k12.az.us

School Site: Seligman High School

Buildings:

Description of Problem

Please include a detailed description of the issues, as well as a description of and a copy of any professional studies, citations or reports from government entities, recommended solutions, and any cost information or estimates. If additional space is needed, please attach.

Due to the large amount of pages from many reports from various engineers and contractors with regard to the Old Gym there are too many to scan. I am requesting that a representative from the SFB come to the site and see the condition of the Old Gym.

We did not pass our bond election 2012 that would have replaced Old Gym with a metal one. I would like direction to give to my Board as to whether the Old Gym can be repaired or will need to be torn down.

The Trust, our insurance group, has stated that it will not cover for occupancy until a structural engineer signs off for the building to be occupied again. We may use as a storage facility, but cannot put staff and students in the building.

At the April 2013 Board Meeting I was directed to seek the advice of a structural engineer. I would like to have your professional opinion and possible support.

Project Category: Roofing

Are any of the above-described issues in buildings or part of buildings that are leased to another entity, including a district sponsored charter school? N

Available Funding

Current unencumbered building renewal fund balance (Fund 690):	\$0.00
Amount of Local funds planned for this project	\$0.00

Please outline any associated insurance coverage.

Building Renewal Grant Application

Gym currently poses a threat to other campus structures if it were to collapse. The Old Gym houses much of the original electrical panels that are daisy chained to other buildings.
